Digital Futures

The Bridge at Waterloo

is an OCN accredited four week coding course delivered by one of the country's leading technology trainers followed by up to a month long paid placement at a local creative industry, providing the perfect platform for a career in tech or the creative industries.

In partnership with

CiTizens UK

- Are you 18-30 years old?

- Resident in Lambeth?

- Unemployed or beginning to look for work?

- Interested in a career in technology and the arts?

If your application is successful, you will join a team of sixteen young people at a month-long creative coding boot camp, climaxing with a digital showcase that allows an audience to interact with a live performance at the **Strive Festival 2016** at London's Southbank Centre. Following this, the most talented and engaged candidates will be put forward for a month-long internship at local creative industry.

If you want to find out more, come to our open day on Saturday 21st May, full details can be found by visiting our website www.bridgeatwaterloo.org

'The world is crying out for creative technologists. By designing and building all the technology for an interactive performance, you will develop the confidence to turn your hand to anything digtal. If you've wanted to learn how to code, this is your chance – don't miss it!

Alasdair Blackwell -course leader and creative technologist
